

It's back!!

Mt Majura West 'Pick Up Sticks Scatter'TM

Today's map has nine legs, labelled A, B, C, D, E, F, G, H & J. You can do legs in either direction, or in the case of the two triangular legs, start at any vertex and go either clockwise or anticlockwise. However, you must complete a leg before moving on to your next leg.

Today's event is a scatter event, as you must collect a given number of legs. In determining the most efficient route, you need to consider not only the lengths of the legs themselves, but also the distances to connect the legs.

Orange 1: Collect any eight legs (i.e. leave out one leg).
(Sensible routes: 5.6km – 5.9km)

Orange 2: Collect any seven legs (i.e. leave out any two legs).
(Sensible routes: 4.8km – 5.0km)

Orange 3: Collect any six legs (i.e. leave out any three legs).
(Sensible routes: 4.1km – 4.4km)

Orange 4: Collect any five legs (i.e. leave out any four legs).
(Sensible routes: 3.6km – 3.8km)

('Sensible route' distances reflect straight line distances rather than actual distances necessarily covered.)

The start is a blind start—you can turn over your map at your start time.
