

Mapping workshop
Yackandandah, Victoria, Friday 4 October 2019
DRAFT PROGRAM

Meeting venues:

Morning (0930 – 1330)

Yackandandah Senior Citizens Meeting Room
14 Wellsford Street, Yackandandah

Afternoon (1330-1600)

Mongan Lane, right off Racecourse Rd (not off Osbornes Flat R).

What to bring:

Your interest, experiences and a willingness to share. Tablet for afternoon fieldwork or any other things that you think may be of interest to fellow mappers.

Catering

Tea/coffee/biscuits provided for morning tea.

Self-cater for lunch (bring your own or try the Yackandandah Bakery or Gum Tree Pies)

Program

Morning program.

(Times and speakers to be advised)

IOF Mapping specifications:

- Background to the new mapping specifications including the greater emphasis upon minimum size and separation.
- Tools for testing compliance (and symbol set issues): OCAD, CheckOMap
- IOF Mapping Commission: current and future plans – where is ISOM heading?
- PrintTech sheet for checking colours

Converting existing maps

- Practical experiences in converting existing maps.
- How to plan a map conversion: financial issues. Cross Reference Tables (CRT), desktop, targeted fieldwork or a full remap?

Digital mapping update

- Latest developments in LIDAR
- Mapping using a tablet in field

Afternoon program

Field walk on Rowdy Flat

- Issues in Rowdy Flat mapping (Alex Tarr)
- Review using new datasets
- Mapping using tablet in field

Existing map (OCAD and OOM formats) and digital data including LIDAR will be available for download prior to meeting.

We hope to have two members of the IOF Mapping Commission at the meeting which offers a fantastic opportunity to learn and discuss any mapping issues.
